

Clicking on the link will open in Google Drive.

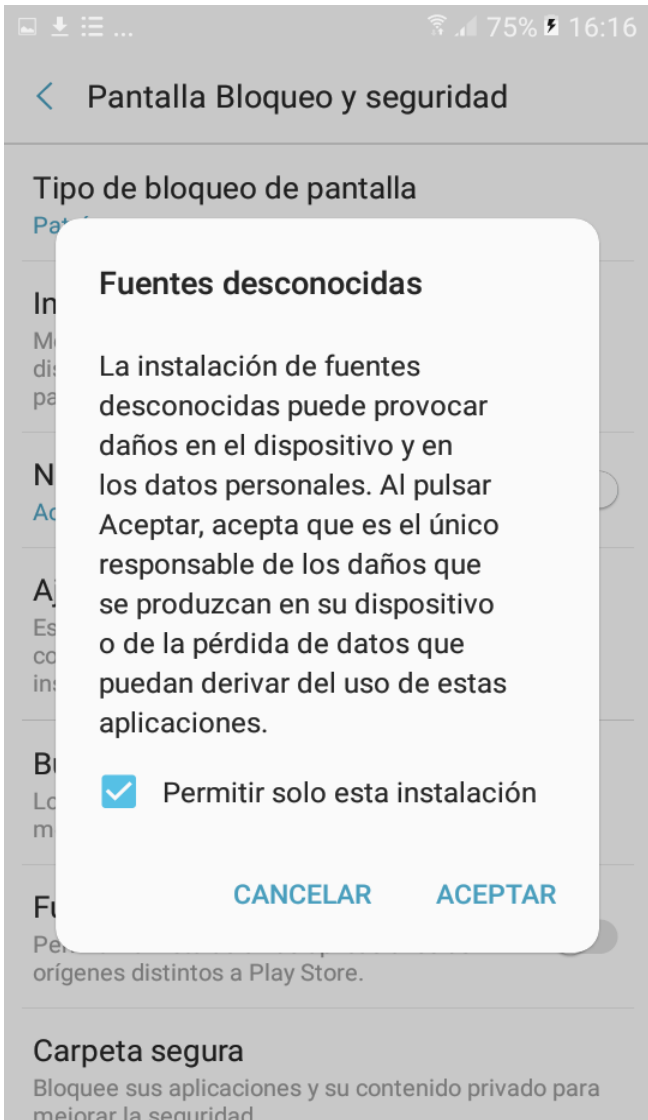

final3.apk

In some cases it says Blocked Installation that means that the device has it as an unknown source, click on ADJUSTMENTS which will send it to configurations

Configuration of unknown sources activate it, a popup window will appear click on ACCEPT

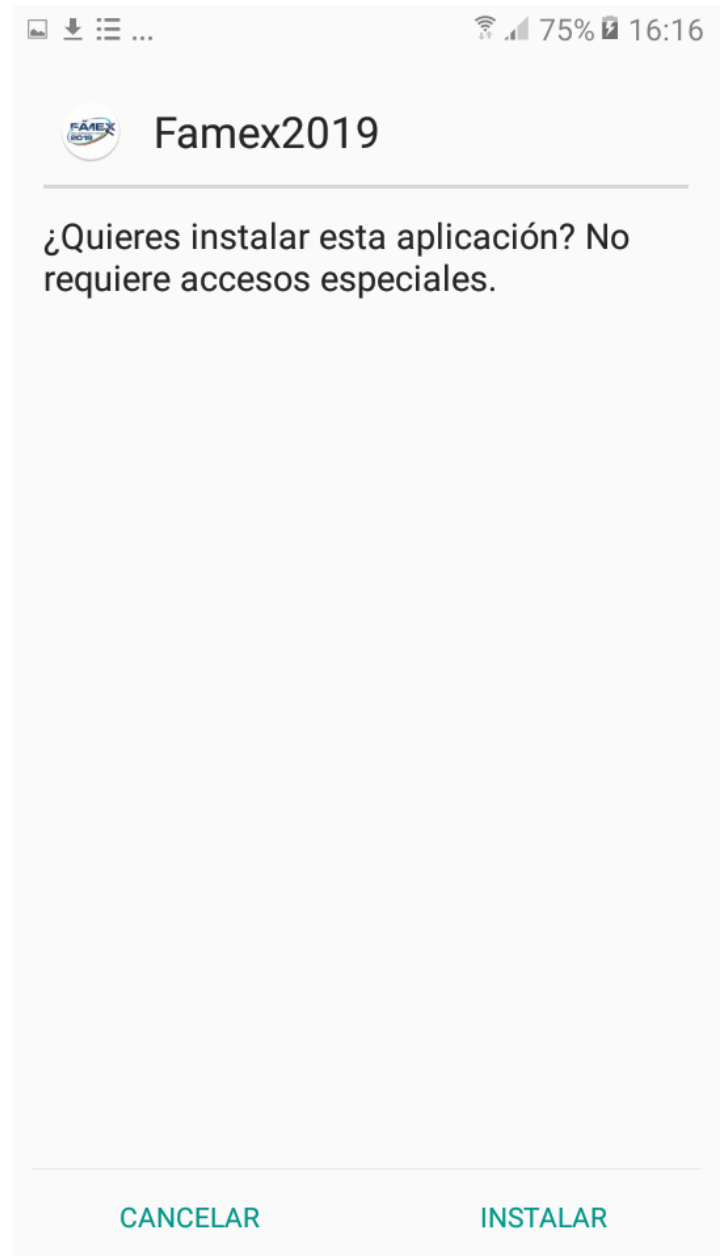

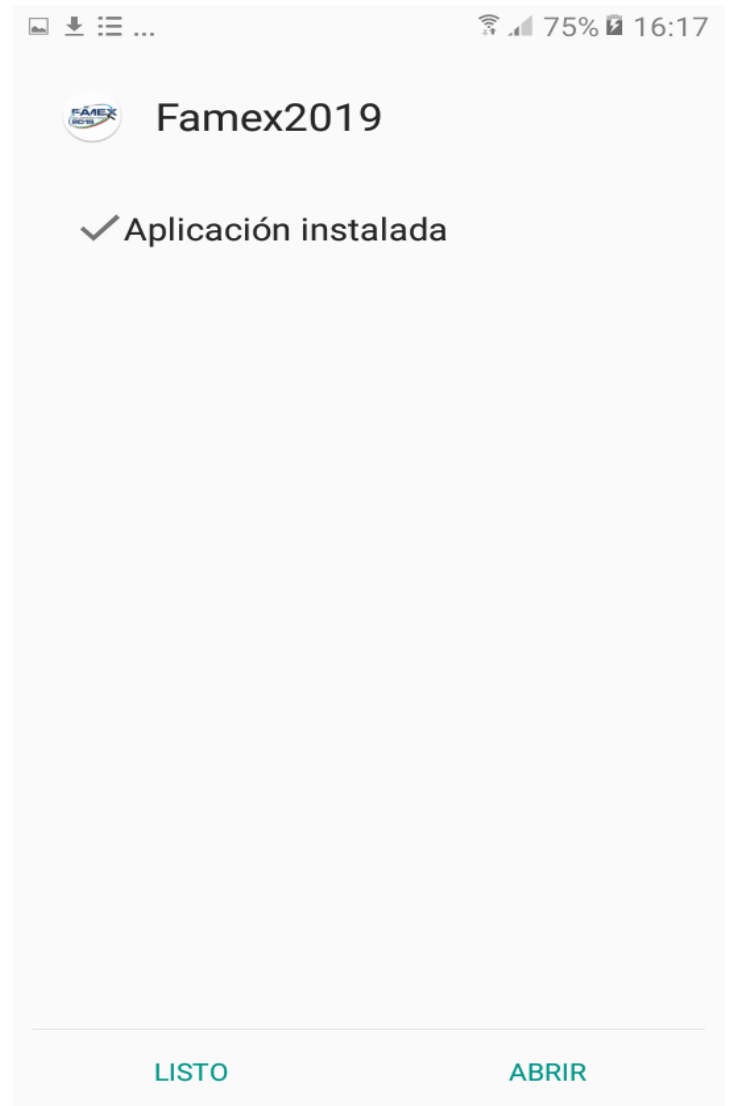

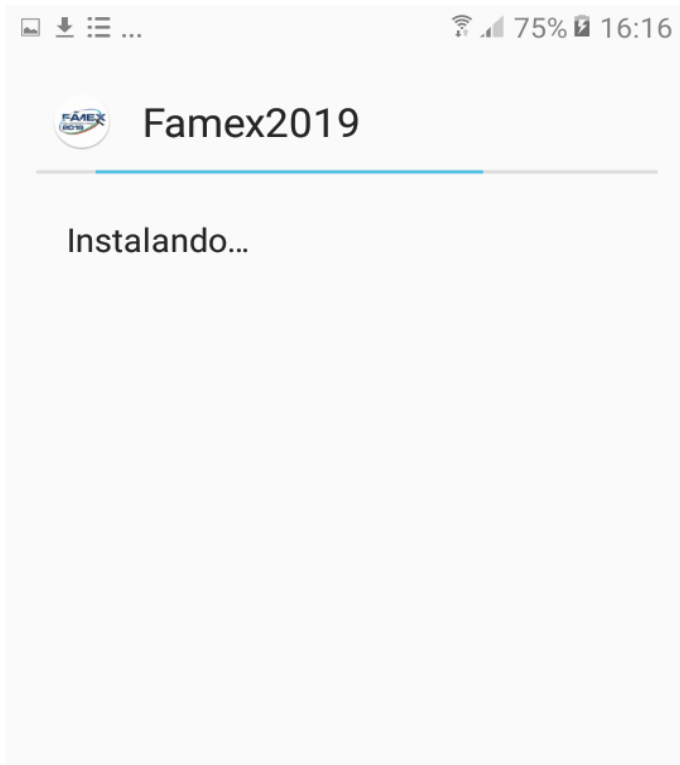

Probably notify that it will cause damage to the device which is false, the application will not damage your mobile

In other types of devices it shows that the application was blocked in that case click on INSTALL IN ANY WAY and it will continue with the normal installation, if you click on accept it will block it and you will not be able to install it again

Once accepting, we click on install and the Famex application will begin to install, it may take a few minutes

Once the installation is complete the application can be opened, it will only ask for an email and a password with a minimum of 7 characters
